GIFTED IDENTIFICATION PROCEDURE

Students may be identified as academically gifted in one of two areas:

1. Superior Cognitive Ability
2. Specific Academic Ability (Mathematics, Science, Reading/Writing, and Science)

Criteria for identification is written into sections 3324.01-3324.07 of the Ohio Revised Code and 3301-51-15 of the Ohio Administrative Code, Rule for the Identification and Services for Children Who Are Gifted.

Superior Cognitive Ability

The Ohio Department of Education states that Superior Cognitive Gifted Identification can be obtained three ways. Students identified as Superior Cognitive Ability Gifted must score two standard deviation above the mean, minus the standard error of measure on an approved standardized individual or group intelligence test or performed at or above the ninety-fifth percentile on an approved individual or group standardized composite battery of a nationally normed achievement test, or attained an approved score on one or more above grade-level standardized, nationally normed approved tests.

Specific Academic Ability

Students identified as Specific Academic Ability Gifted must score at or above the 95th percentile at the national level on an approved individual or group standardized achievement of specific academic ability in that field. A child may be identified gifted in more than one specific academic ability field. Ohio states that a child shall be identified as exhibiting “Specific Academic Ability superior to that of children of similar age in a specific academic ability field if within the preceding twenty-four months the student performs at or above the ninety-fifth percentile at the national level on an approved individual or group standardized achievement test of specific academic ability in that field.”
